

**Dear Wind Power Industry Supplier,**

**Goff, Inc. is an industry leader in supplying shot blast and shot peening equipment to companies all across North America and has engineered and manufactured equipment that has provided shot blasting solutions for small, locally owned shops, to some of the largest, globally owned corporations. We have supplied shot blast equipment to wind power suppliers, tower manufacturers, gear and bearing companies, foundries, fabricators, metal improvement companies, paint and coating companies, and many other industries with equipment to make their processes more efficient and cost effective.**

**If your company has any questions about metal cleaning, rust or scale removal, metal improvement, or shot peening, please give us the opportunity to provide your company with a shot blasting solution for your application.**

**A few of our many types of machines are shown below:**

## **Goff Pass-Thru Wind Tower Blaster**

**Wheel Blast the O.D. of tower sections with steel grit to give a surface profile prior to painting or coating.**

**Wind Tower O.D. Blaster shown during installation at customer's facility.**

**Goff 10' Steel Plate Shot Blast Shown during installation at customer's facility.**

**Flat Steel Plate is shot blasted prior to fabrication. This provides a clean plate which is easier to roll, cut, and weld. Custom conveyor systems are available to meet your needs.**

**Another 10' Plate Blaster  
Final assembly in our Seminole, OK facility.**

**Goff, Inc. can provide custom engineered equipment to meet your specific application and production requirements.**

## **Goff 36" Wire Mesh Pass-Thru Shot Blast**

**Wire Mesh Belt Pass-thru Shot Blast Systems are available in many sizes and configurations.**

## **Two Goff 3 cu. ft. Barrel Blast**

**Shown during assembly at our Seminole, Oklahoma manufacturing facility.**

**Standard Shot Blast Equipment  
In-stock for fast delivery.**

## **Goff 96" Diameter Table Blast Shot Peener**

**Shown here peening a large wind turbine gear.**

**Shot Peening setup with abrasive classifier, MagnaValves, Variable Speed Blast Wheels, and PLC Automation Controls.**

*Goff, Inc.*

---

**Watch our website for pictures of additional equipment we have provided to wind energy suppliers.**

**Goff, Inc. can engineer a complete system for your application. Give us a call with any questions you may have.**

**We look forward to hearing from you!**

**Look for us in Dallas at the AWEA WINDPOWER 2010 EXPO, Booth #105. See you there!**

**Best regards,**

**John Bishop
